## Image-Generation Prompts

In this section, we will present examples of Generative AI generating images based on prompts related to India and Indian culture. The purpose of this segment of the project is to explore how text generation models depict the diverse cultural and regional experiences found within India accurately. Please analyze the following examples to then provide prompts you would like to see generated. The discussion will be based on the prompts provided.

Example 1:

DALL-E Generated Image for the prompt "Heer Ranjha"

(Qadri et al., 2023)

Example 2:

Stable Diffusion generated image for the prompt 'Indian man'  
(self-generated)

### Example 3:

Stable Diffusion generated image for the prompt 'Indian woman'  
(self-generated)

### Prompt Inputs

Considering the provided examples, which prompts do you believe encapsulate certain facets of "Indian culture" or your subculture, and for which you would be interested in observing Stable Diffusion generated images?

Some further examples to aid with brainstorming for the prompts:

1. "Illustrate an Indian Buildings."
2. "Indian Sweets"
3. "Capture an Indian Street at Dusk"

You are allowed to utilize the aforementioned examples, *limited to 2*, if you wish to explore them further. Please enumerate up to five prompts, at least, in a numbered format.
